## Republic of Ramona Monthly Newsletter

Welcome to the first Democratic Republic of Ramona's first monthly newsletter. We will be making a new one each month with all of the Republic's news. Go to [republicoframona.github.io](https://republicoframona.github.io) to find the newsletter every month.

### Leader's Address

Dear Citizens,

This is a historic moment in the Republic's History. Our Great Empire has come so far in only a month. We have had our first elections, which show our great level of Democracy. Far more than that of our counterparts. We are working our way towards making allies, and eventually towards generating a profit.

For the first time, we had a minister meeting earlier this week, which was greatly successful. We will continuing to have these once a month or when one is called by myself or a member of government. These will be held on Tuesday or Thursday, depending on who needs to be in attendance.

We have also created a website and email address thanks to the work of Arthur Bridger, our Minister of Sciences and Technology. For members who are new, please contact Arthur to set up your access to the members only section of the website. Please regularly check the website for further notices and information. This is also where you can find future releases of the monthly newsletter. If you receive an email from the address [republicoframona@gmail.com](mailto:republicoframona@gmail.com), please read

and respond if necessary.

Our second election will be held on the 27th of September, 2025 unless changes are made to the law beforehand. This gives new Republic members the chance to run in government, and gives the citizens of the Republic the chance to vote out someone they do not like. Ministers can be sent to court if they are believed to be corrupt. This means that they have been found to use bribery, blackmail, extortion, theft, fraud, embezzlement or nepotism.

Fascism has taken over our world, but the Democratic Republic of Ramona is still a peaceful and Socialist nation. We have avoided being tarified by the Orange Man and are continuing to prosper without any imports from other nations.

This is the year of the Republic, this the year of the Revolution, this is the year of the people!

Your Leader
